

Human Resource & Business Process Management (HRM)

Sales Overview Brochure

Solution Provided By

With HR playing a strategic role within the organization, choosing the right HRMS is critical to engage and empower your employees. We, at TECHFRAMEZ and Novel Cloud Systems, are empowering many large multinationals in Middle East through tectonic shifts in technology to automate HR transactions and drive business benefits across functions. eOctopus HRM is completely organic and native solution with statutory compliance for GCC and African countries. It is intuitive and has role-based workspaces where one screen can handle all the functions.

An HRMS (Human Resource Management System) is a combination of systems and processes that connect human resource management and information technology through HR software. An HRMS may help to revolutionize a workplace.

The automation of repetitive and time consuming tasks associated with human resources management frees up some of the companies most valuable employees and allows the focus to shift to culture, retention, and other highly impactful areas.

Introduction

Workflow Automation Software for Leaders Who Refuse to Work with Chaos.

Powerful, easy-to-use workflow management software designed to make your business more efficient and more profitable so that you can get more done.

eOctopus Business Process Management is a business workflow software that helps innovative companies to reduce chaos by using our cloud workflow software. When compared to legacy workflow management software, eOctopus BPM is very simple and easy to use. For small and medium businesses where workflow process often change dynamically, implementing an internal workflow automation software is often challenging. Added to this, many of the workflow management software are prohibitive for these companies to purchase. eOctopus BPM is not only simple and easy-to-use but also very affordable. In other cases, companies choose a suboptimal workflow tools to automate their workflow process wasting significant organizational resources; time and money. Those options become complicated as many people start using the system. Also many workflow automation software are targeted towards developers rather than end user managers or department heads who face the automation challenges on a daily basis. If you are looking for a workflow app to automate your business process workflow look no further than eOctopus BPM .

Unified Home Screen

The Action center of eOctopus BPM. From here you can initiate your Process Requests, see all your Initiated Items, see Items that need your Action, and provide Approvals quickly and easily.

Analytics

Need to track Process Performance? Monitor KPIs? It's a breeze with our dynamically generated Process Reports. Easily track bottle necks in your Workflow and monitor Process Efficiency.

Integrate

Use our Integration APIs, WebHooks and Zapier End Point to integrate with your favorite Cloud Based Applications such as HR/Payroll in real-time.

Anywhere. Anytime.

Apart from your favorite Browser, eOctopus BPM is available for Android and cross-platform.
