ABOUT eOCTOPUS

eOctopus is the enterprise class software provided by Novel Cloud Systems Ltd. Novel Cloud services are designed to provide easy, scalable access to applications, resources and services, and are fully managed by our skillful team. Novel cloud service can dynamically scale to meet the needs of its users, and because we Monitor our services 24/7, there's no need for a company to provision or deploy its own resources or allocate IT staff to manage the service. The Services and solutions at Novel Cloud Systems Ltd. are as limitless as the boundaries of engineering, science and technology. We're growing all the time and wherever we go and whatever we do, our Customers grow with us. We give talented, open-minded and innovative and skilled team the chance to explore varied enterprise solutions in a challenging and rewarding international environment as a British company. We understand and just how rare truly exceptional customers are, so we'll invest the same innovation, time and care into your business that we put into each of our fascinating solutions.

eOctopus Accounting System System

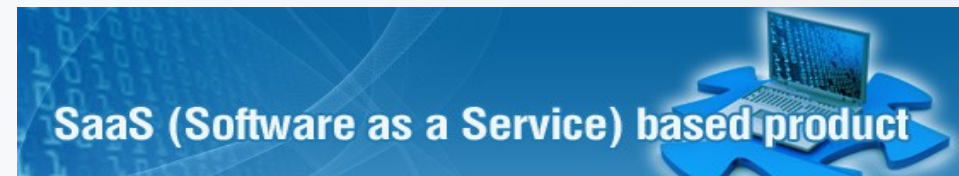

eOctopus Accounting System is a secure cloud based double entry accounting system enabling organizations and individuals to manage their financial accounts with multiple companies.

CLOUD ACCOUNTING SOFTWARE EQUALS GREATER ROI

Get high ROI and continuous value from your software provider, not just a maintenance bill. With eOctopus Accounting System cloud accounting software, you receive automatic quarterly upgrades that are touch-free for you—no business disruption, no costly upgrade projects. You can eliminate hardware costs and IT effort from your cost of ownership. And eOctopus Accounting System cloud accounting software delivers world-class security, backups, and disaster recovery, protecting your financial data and system at a much higher level and lower cost than if you did it yourself.

With eOctopus Accounting System, you see reports and dashboards that highlight your performance with any combination of drivers and metrics, so you get the right information at the right time to make the right business decisions. With eOctopus Accounting System's revolutionary general ledger system, you can use dimension values—instead of old - fashioned account segments—to capture the business context of transactions, operational measures, and budgets. That's how eOctopus Accounting System gives you the most relevant view of your real-time business performance, while also simplifying your chart of accounts. eOctopus Accounting System's general ledger accounting software is ready to go with 7 predefined dimensions, including projects, products, and employees. Easily add your own unique dimensions to track other business success factors.

Automated accounting software that's cloud-based for unlimited growth and scale. Our cloud accounting software helps Accounting Systems and controllers save significant time, eliminate redundant processes, streamline reporting, and always be audit-ready. We automate billing, accounting work-flows including shared dimensional chart of accounts and multi-entity consolidations, and reporting with custom dashboards. Our cloud-based accounting software has a lower TCO vs. traditional on-premise solutions, and it's designed to grow with your company.

WE'LL ALWAYS BE STRIVING
TO DO BETTER, SO THAT IT'S
EASY FOR YOU TO DO YOUR
BEST, TOO.

Accounting productivity, unleashed

Make it easy for your team to increase productivity. eOcotpus cloud accounting software is browser-based and mobile-friendly, so you can use it at any location, on any device. Feel free to enter data on your laptop, see information on your iPad, and approve transactions from your mobile phone. Plus, it's a pleasure to use. Unlike solutions that have merely adapted their 20-year old screen for a browser, eOcotpus's cloud-native UI was designed from the start to offer a modern, intuitive user experience. Finally, there are no backups to do or technology to maintain, so your team can be totally focused on finance.

A hand holding a blue pen is positioned over a calculator. The hand is wearing a blue and white striped shirt sleeve. The calculator is on a white surface, and its reflection is visible below it. The background is a blue gradient with a white cloud-like pattern.
