NOVEL
CLOUD
SYSTEMS

The Services and solutions at **Novel Cloud Systems Ltd.** are as limitless as the boundaries of engineering, science and technology. We're growing all the time and wherever we go and whatever we do, our Customers grow with us. We give talented, open-minded and innovative and skilled team the chance to explore varied enterprise solutions in a challenging and rewarding international environment as a British company. We understand just how rare truly exceptional customers are, so we'll invest the same innovation, time and care into your business that we put into each of our fascinating solutions.

NOVEL CLOUD SYSTEMS SERVICES

Every business has to grow and we help them to grow

NOVEL CLOUD services are designed to provide easy, scalable access to applications, resources and services, and are fully managed by our skillful team. Novel cloud systems service can dynamically scale to meet the needs of its users, and because we Monitor our services 24/7, there's no need for a company to provision or deploy its own resources or allocate IT staff to manage the service.

Novel Cloud Systems can help you transform in the hybrid cloud and make the most of private and public cloud infrastructure. Our proven services help you securely move work to the cloud and rapidly modernize and integrate applications.

NOVEL CLOUD SYSTEMS

SERVICE LAYERS

CLOUD SERVICES

NATIVE SOFTWARE

PLATFORMS

INFRASTRUCTURE

SaaS Cloud

Software as a service (SaaS) allows users to subscribe and use application software in the cloud.

SaaS Native Applications

Windows Custom software, Smartphone application development

Operating System

We prefer Linux, We are Redhat Ready partners

Hosting

We provide Fast, reliable and feature loaded with support you can depend on.

Business and its management are in the hands of people who are behind that big idea. It is very essential to carry it in a proper manner and Novel Cloud Systems & its enterprise software bran (eOctopus) solutions are designed in a way to be your best business partner. Established in 2012 the company was set up with a vision of providing the best services to its clients.

eOctopus

eOctopus Services

eOctopus is Novel Cloud Systems enterprise software brand.

ERP & CRM Systems

Available on-premise or on-cloud, eOctopus ERP & CRM is a comprehensive business management solution designed to keep your total cost of ownership low by supporting multiple technologies, databases, and operating systems.

Human Resources Management

eOctopus HRM is a cutting-edge HR application encompassing the latest in web technologies including cloud capabilities. HR modules include HRIS, Attendance, Leave and Payroll.

Hospital Information System

eOctopus HIS supports and facilitates the work of medical personnel. Staff in general practice, on the ward, in the operating theater and in the laboratory all use software with a similar and equally intuitive interface. The system may also be used on mobile devices such as tablets, which provides doctors with access to information about a patient right at the bedside. The identification process is more efficient — just scanning the code on the information band offers quick test referrals, readout of results or administration of medication

E-Commerce Enterprise System

When we say it's never been easier to start a business, we mean it. Eoctopus E-Commerce System handles everything from marketing and payments, to secure checkout and shipping. Now you can focus on the things you love.

Other Cloud Services

Custom online application Design & Development

Search online for business web applications and you'll get millions of results. Some are simply articles, others are actual apps. We have good news for you: you don't have to sift through thousands of apps to find the ones that suit the needs of your business.

At Novel Cloud Systems, we offer custom web application development, providing you with a tailored web app solution. Whether you're looking for a solution built from scratch, you want to migrate your legacy backend or streamline existing front-end functionality, we can help you reach your goals in an efficient and cost-effective manner.

Responsive Website Design & Development

Our professional web development services can range from the simplest single static page of plain text to web engineering, custom web application development, web content development, client-side/server-side scripting, web server and network security configuration, or e-commerce development.

Android & IOS app Development

Novel Cloud Systems develops engaging mobile experiences, while taking care of everything from design to development for your big ideas.

Enterprise Mobile Messaging

We help you seamlessly integrate to deliver new services for consumer engagement across all mobile channels.
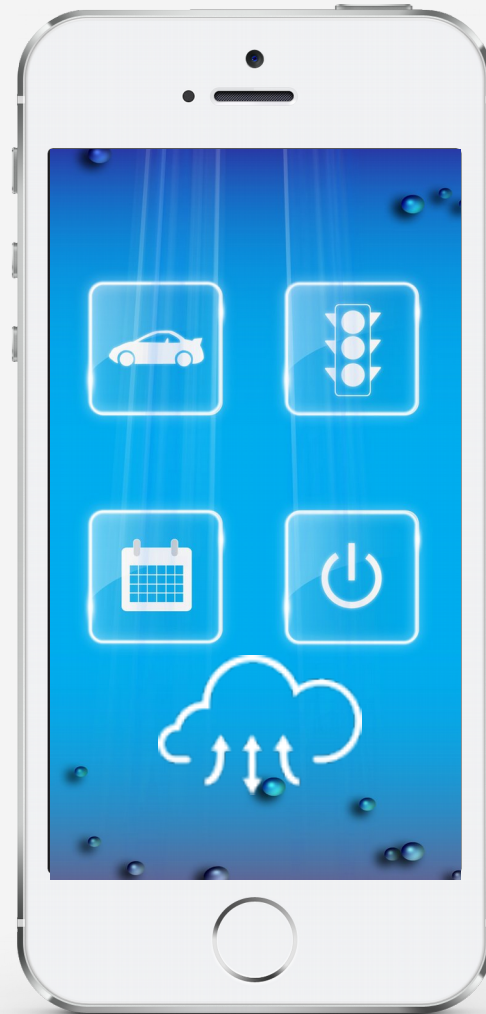

SMS Messaging

Confidently scale and deliver your business SMS messages globally. We will take care of all the complexities for you.

Voice

Eliminate the expensive infrastructure and overhead typically needed to build and operate a proprietary platform. Easily connect via our Voice API & Voip Services

Push Notifications

Your customers are on their mobile devices nearly all the time, are you there too? Get user attention with push messages that bring them back to your app and increase their engagement with you.
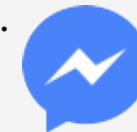

Transactional Email

The key to building customer loyalty is letting them choose how they want to communicate and engage with your brand. With hundreds of app alerts and notifications fighting for your customers' attention, email gives your customers an opportunity to deal with specific types of messages on their own schedule.

Chat Apps

Messaging integrations for Chat Apps seamlessly extend your business communications over in-app and Over-The-Top messaging. Reach any user, anywhere in the world.
